OF NONPROVISIONAL APPLICATION**

Dear Sir:

In response to the Notice to File Missing Parts of Nonprovisional Application mailed November 15, 2004 (the "Notice"), Applicant responds as follows by submitting the following items:

1. Transmittal;
2. Response to Notice to File Missing Parts of Nonprovisional Application (this document);
3. Preliminary Amendment;
4. Request for One-Month Extension of Time,

Application No. 10/710,972

## 5. Part 2 Copy of the Notice to File Missing Parts of Non-provisional

Application; and

## 6. Return Postcard.

The Notice indicated that additional fees of \$486 for a large entity were required. The undersigned does not understand how the Office calculated that fee. The Summary of Fees due in the Notice indicated that there were 51 total claims over 20. That calculation is believed to be incorrect. The present application was submitted with 44 total claims, not 51 or 71 ("51 over 20"). The application as filed had 44 total claims, with 4 independent claims, and many multiple dependent claims.

As is known, the Office increased patent filing fees on December 8, 2004. The additional claims fees under the new fee schedule would have been substantially in excess of \$486.

Rather than determine the claims fees under the new filing fee schedule, the applicants have elected to cancel the multiple dependent claims for purposes of facilitating rapid prosecution of this application. All dependent claims are now basically dependent under claim 1. In the event that the examiner allows claim 1 and its associated dependencies, the applicant reserves the right to reintroduce the subject matter of the canceled dependent claims relative to the other independent claims.

With the cancellation of the multiple dependent claims, the applicants overpaid the filing fee. Applicants request that the overpayment be applied to payment of the fee for a one-month extension of time.

Please send any future correspondence to John R. Harris at the address associated with Customer Number 24728.

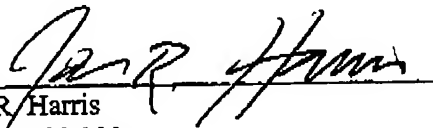

Application No. 10/710,972
